AMA Manual of Style
The laboratory values and reference ranges are provided for illustration only and are not intended to be comprehensive or definitive. Each laboratory determines its own values, and reference ranges are highly method dependent. Reference values given are for adults. For some entries for which specific molecular masses are not known (eg, proteins), reference values in SI are given as mass ...

AMA Citations: A Quick Reference - Touro University California
The MLA Style Manual, titled the MLA Style Manual and Guide to Scholarly Publishing in its second (1998) and third edition (2008), was an academic style guide by the United States-based Modern Language Association of America (MLA) first published in 1985. MLA announced in April 2016 that the publication would be discontinued: the third edition would be the last and was to be “taken out of …

Title. The primary goal of a title should be to summarize the main idea(s) of your paper simply and clearly. The title should be positioned in the upper half of the page and centered.
