How to Effectively Code for Endoscopic Procedures in ...
In biology, a lumen (plural lumina) is the inside space of a tubular structure, such as an artery or intestine. It comes from Latin lumen, meaning 'an opening'. It can refer to: The interior of a vessel, such as the central space in an artery or vein through which blood flows.; The interior of the gastrointestinal tract; The pathways of the bronchi in the lungs

Carpal tunnel syndrome is a common condition that causes pain, numbness, and tingling in the hand and arm. It occurs when one of the major nerves to the hand—the median nerve—is squeezed or compressed as it travels through the wrist.

Carpal Tunnel Syndrome - Symptoms and Treatment ...
The median nerve, colloquially known as the "eye of the hand," is one of the three major nerves of the forearm and hand. It courses from the brachial plexus in the axilla to innervate the intrinsic muscles of the hand. Median nerve entrapment syndrome is a mononeuropathy that affects movement of or ...

Nasal Polyp: A nasal polyp is a mass of gelatinous tissue which usually forms from allergy. If only on one side, one must rule out a carcinoma or cancer. Allergic nasal polyps can be treated by topical nasal steroids or by surgical removal. Often endoscopic sinus surgery is needed for their removal. Search PubMed for Nasal Polyps
