Nutrition Research Methodologies The Nutrition Society Textbook
Nutrition Research Methodologies The Nutrition
Based on advances in food research technology, and methodologies for the improvement of U.S. Military soldiers’ overall health and nutritional status, the History of military nutrition in the United States can be roughly divided into seven historical eras, from the founding of the country to the present day. Through the research and guidance of medical and military professionals, rations and ...

Controlled Environment Agriculture (CEA) is the technology that allows cultivation of plants under preferred environmental conditions; within structures such as greenhouses, hydroponics, aquaculture, or aquaponics. By using CEA, we can produce high-value crops at maximum productivity in an efficient and environmentally friendly way.
