Radiography Study Guide
Radiography Study Guide
The Society and College of Radiographers is responsible for their professional, educational, public, and workplace interests of radiographers and the wider radiography workforce, being both a professional body and a trades union affiliated to the Trades Union Congress. Founded in 1920, the Society is one of the oldest and most experienced radiography bodies in the world.

Radiography | ScienceDirect.com
Radiography is an imaging technique using X-rays, gamma rays, or similar radiation to view the internal form of an object. To create the image, a beam of X-rays or other form of electromagnetic radiation is produced by an X-ray generator and is projected toward the object. A certain amount of the X-rays or other radiation is absorbed by the object, dependent on the object's density and ...
