Before beginning your paper, you need to decide how you plan to design the study. The research design refers to the overall strategy that you choose to integrate the different components of the study in a coherent and logical way, thereby, ensuring you will effectively address the research problem; it constitutes the blueprint for the collection, measurement, and analysis of data.

Types of Research Designs - Organizing Your Social ...
Abstract: An abstract is a brief summary of the main points of an argument. Some journal articles appear with abstracts on the first page. Read the abstract, and ask yourself, does this article suit my needs? Do I understand the abstract? Is this article too advanced, or not advanced enough?
