Techniques And Guidelines For Social Work Practice
Techniques And Guidelines For Social

Abstract. This document describes techniques for authoring accessible Hypertext Markup Language (HTML) content (refer to HTML 4.01). This document is intended to help authors of Web content who wish to claim conformance to "Web Content Accessibility Guidelines 1.0". While the techniques in this document should help people author HTML that conforms to "Web Content Accessibility Guidelines 1.0 ..."

HTML Techniques for Web Content Accessibility Guidelines 1.0

Social research is a research conducted by social scientists following a systematic plan. Social research methodologies can be classified as quantitative and qualitative. Quantitative designs approach social phenomena through quantifiable evidence, and often rely on statistical analysis of many cases (or across intentionally designed treatments in an experiment) to create valid and reliable ...

Introduction. The World Wide Web Consortium (W3C) develops international Web standards: HTML, CSS, and many more. W3C’s Web standards are called W3C Recommendations. All W3C standards are reviewed for accessibility support by the Accessible Platform Architectures Working Group. The W3C standards and Working Group Notes introduced below are particularly relevant to accessibility.
