The Drivers And The Outcomes

The mediating hypotheses of the current study can be combined into a conceptual model of the expectations for how safety climate may affect outcomes beyond safety outcomes (see Fig. 1). Both organizational-level and group-level safety climate are proposed to have direct relationships with job satisfaction, employee engagement and turnover.

Beyond safety outcomes: An investigation of the impact of ...

Police pull over more than 50,000 drivers on a typical day, more than 20 million motorists every year. Yet the most common police interaction — the traffic stop — has not been tracked, at least not in any systematic way.

Findings - The Stanford Open Policing Project

Educational outcome measurement (EOM) is a creative process. Our ultimate goal is to develop a practical plan to measure changes in CME participant knowledge, competence, performance or even the health of their patients.
